

City of Montebello

September 23, 2015

Tom Wheeler
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Chairman Wheeler,

I have been a long time active member of Montebello and as the current Mayor I am committed to the growth and prosperity of the City. After reviewing the plans Charter has made as part of the merger with Time Warner Cable and Bright House Networks, I believe that plan will assist in the growth and prosperity that I seek for my City.

If the merger is approved the New Charter will bring better products and services to the 64,000 residents of my City. They have planned to launch the latest in cloud-based technology, foster Internet speeds without modem charges. In addition, they have promised to invest in 300,000 out-of-home WiFi hot spots allowing for Internet access throughout my community.

For the business community, there will be \$2.5 billion invested in extending the services to commercial areas. This would bring much needed options for businesses both small and large in the area.

Finally, I wish to commend current and future community resources Charter and New Charter will provide. Currently, Charter offers a local news interview show to local elected and community leaders. I find this resource invaluable to getting the word out on important policy and programs being spearheaded by the City. I am pleased that they will continue with their *Charter Local Edition* show with the merger. I also am extremely pleased with them adopting a low-income broadband service that will now be available to the neediest of families in the community.

I appreciate your time and encourage you to approve the merger.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jack Hadjinian", written over a horizontal line.

Jack Hadjinian
Mayor
City of Montebello
